Roofle Lollipop Craft

xxx

You will need:

Lollipop sweets, a printer, printed Roofle sheets, tape, and some scissors.

Step 1: Print and cut

Print out the Roofle head sheet. Carefully cut out each Roofle head using your scissors.

Step 2: Cut out the nose

Carefully pierce a small hole in Roofle's nose with your scissors, then cut around the nose to create an opening.

Step 3: Add the lollipop

From behind Roofle's head, carefully push your lollipop sweet through the nose opening. The lollipop should sit in place as Roofle's nose, with the stick hanging down below.

Use a small piece of tape on the back if needed to keep the lollipop secure.

Step 4: Enjoy!

Your Roofle lollipop is ready! Enjoy it yourself or give it to your friends and family.
