

# Boofle's Beach in a Jar

xxx♥

## You will need:

A glass or plastic jar with a lid, sand (craft sand, play sand, or even some from your last beach trip), small shells, pebbles/stones, a small piece of blue tissue paper or felt (to create the sea), paper, pens, glue, scissors, and the Boofle cut out sheet for decoration.

## Step 1: Pour in the sand

Pour your sand into the jar to create your beach base. You can add as much as you like to make it as shallow or deep as necessary.

## Step 2: Add in the sea

Scrunch or fold blue tissue paper or felt and tuck it into one side of the jar. This will be the sea.

## Step 3: Pop in some pebbles and shells

Scatter your shells and pebbles on the sand.

## Step 4: Optional - Decorate

Add any small beachy toys or decorations. Use the Boofle cut out sheet, to bring your beach to life!

## Step 5: Add your lid

Screw the lid on to your jar very tight to complete your beach!
