

Boofle's Nature Rainbow

xxx♥

You will need:

A big piece of paper or cardboard, glue, a pencil or marker, and a basket or bag for collecting.

Step 1: Get exploring

Head outside to your garden, local park or nature trail and start hunting for natural treasures in every colour of the rainbow.

Step 2: Draw your rainbow

Use a pencil or marker to draw a big rainbow shape on your paper or card. You can draw 6 arching lines for the colours. One for each layer of your nature rainbow.

Step 3: Sort your colours

When you're back from your adventures, tip out your findings and sort them into piles by colour.

Step 4: Stick & dry

Glue your finds onto the rainbow lines, colour by colour. Fill in each arch with your nature finds until your rainbow is bursting with colour and texture. Once done leave it to dry.
