

# Reindeer Handprint Craft

xxx♥

## You will need:

Brown paint, white paint, red paint, paper or card.

Optional: any extra colours for decorating

## Step 1: Make the reindeer shape

Paint your entire hand with brown paint.

Press your hand firmly onto the paper or card to create the reindeer's head and antlers.

## Step 2: Add the eyes

Dip one fingertip into white paint.

Dot two small circles above the centre of the handprint for the reindeer's eyes.

(You can add tiny black dots later if you want pupils.)

## Step 3: Add the red nose

Dip your thumb into red paint.

Press it at the bottom of the handprint, where the palm is, to make Rudolph's bright red nose.

## Step 4: Decorate (optional)

Use extra colours to add: snowflakes, falling snow, stars, or a festive background!
