

# Nature Suncatcher

xxx♥

## Things you will need:

A piece of cardboard, scissors, clear sticky tape (wide tape works best), ribbon or string, leaves/flowers/petals/grasses or small feathers.

### Step 1:

- Cut a square or rectangle from your piece of cardboard.

### Step 2:

- Carefully cut out a large square or rectangle from the middle of the cardboard, leaving a border around the edge to create a frame.

### Step 3:

- Turn the frame over and cover the opening with strips of clear sticky tape.
- Slightly overlap each strip so there are no gaps. The sticky side should face upwards through the opening, ready to hold your nature finds in place.

### Step 4:

- Head outside and collect a selection of natural treasures, such as leaves, flower petals, grasses or small feathers.

### Step 5:

- Arrange your nature finds on the sticky tape, creating your own colourful design. Press each piece down gently so it sticks.

### Step 6:

- Once you are happy with your design, carefully cover the front with more clear sticky tape to seal everything inside.

### Step 7:

- Use scissors or a hole punch to make a small hole at the top of the cardboard frame.

### Step 8:

- Thread a piece of ribbon or string through the hole and tie a knot.

### Step 9:

- Hang your finished nature suncatcher in a sunny window and watch the light shine through your beautiful natural suncatcher!
